

WARP

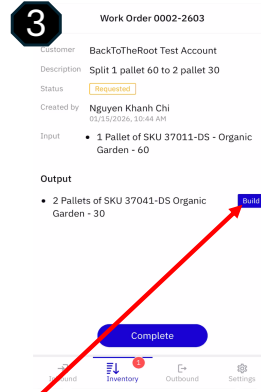

BTTR Work Order SOP

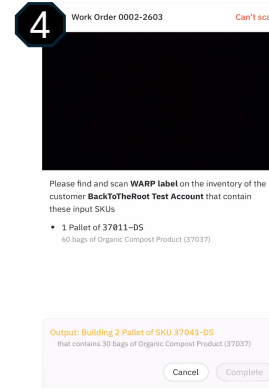

Click "Work Orders" found on the "Inventory" tab of the Warehouse App.

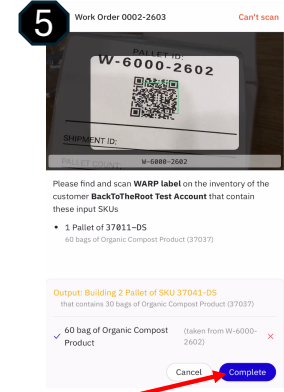

Review the Pending Work Orders and Click "Start Work" next to the work order.

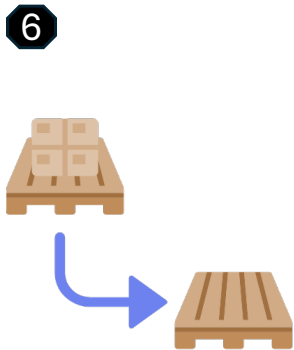

Click "Build".

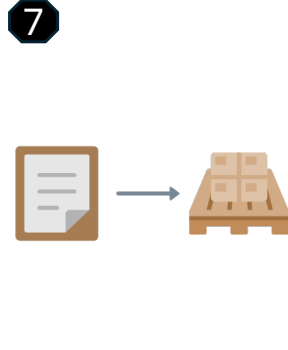

Scan the Pallet Label of the SKU you need for the Work Order.

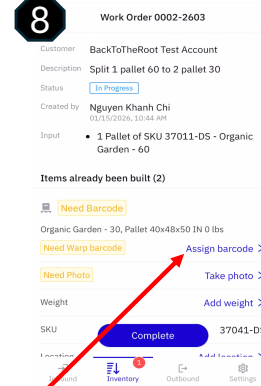

Click "Complete".

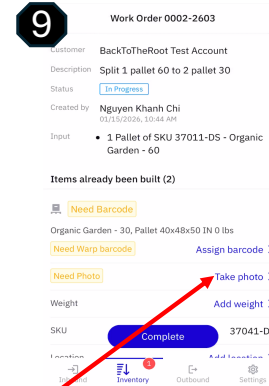

Breakdown the pallet physically. (ex. From 1 - 60ct pallet into 2 - 30ct pallets)

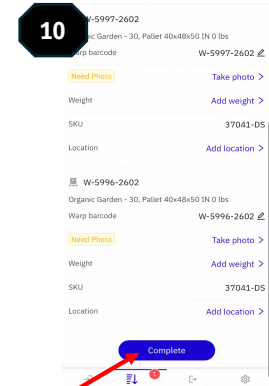

Apply a new Blank Warp Label to each of the new pallets (remove the old labels).

Click "Assign barcode" for the newly built pallets and scan the new label applied. (Do for each pallet)

Click "Take photo" for the newly built pallets and take a photo of the pallet. (Do for each pallet)

Click "Complete".
